Eye Specialists, Inc.
50 North Plaza Drive
Chillicothe, Ohio 45601

Dear Eye Specialists,

I would like to thank you for my gift of sight. Before my LASIK surgery I was forever dependent on glasses or contacts. I could not see the clock while in bed, distinguish my daughter from other children while swimming, or enjoy other outdoor activities without fogging glasses or dust in my contacts. Now, after my LASIK procedure I can see extremely well without the use of any corrective lenses. In fact, I went from very poor vision to 20/20 the very next day.

Your office staff was courteous, caring, and very professional. Dr.'s Schultz and Chawla did an excellent job of explaining every aspect of the procedure to me and I felt completely comfortable with my decision to receive LASIK surgery.

The procedure was quick and for the most part painless. I had a little discomfort that evening but after sleeping all night felt great and even worked the next day. I've had haircuts that were more painful!

I will certainly recommend anyone who may be a candidate for LASIK surgery to consult with Dr. Chawla and the Eye Specialists team. You people are great!

Thanks again for all that you do and I *will* "SEE" you later, without my glasses.

Yours in Health,

Dr. Charles E. Kitchen
